

NO WAVE EMBOSS

: Premium Architectural Finish with Enhanced Durability

Features & Benefits

- KG Steel's No-Wave Embossed Steel prevents oil canning, ensuring a smooth and sophisticated architectural finish. Breaking away from conventional designs, its distinctive horizontal embossing adds a refined aesthetic touch.
- **Oil Canning Prevention**
Eliminates surface waviness that can compromise the elegance of architectural materials.
- **Enhanced Structural Strength**
Improved vertical strength compared to standard steel of the same thickness, offering greater structural integrity and cost efficiency.
- **Refined Design**
Features a unique horizontal embossing pattern that sets it apart from traditional designs.
